

Fibre Diffraction Review: Instructions to Authors

Submitted original papers, technical reports, Reviews, comments/letters and meeting reports for inclusion in Fibre Diffraction Review are welcome.

Technical Reports:

These include presentations of the latest developments in CCP13 and other fibre diffraction/non-crystalline diffraction software and their scientific justification and also, for example, reports on developments at synchrotron beamlines used for fibre diffraction and non-crystalline diffraction studies.

Reviews:

These include summary presentations of the 'state of the art' in the structural analysis of particular fibrous or non-crystalline systems.

Original Papers:

These present previously unpublished results from fibre diffraction or small-angle scattering experiments using either X-ray, neutron or electron diffraction.

Expanded Poster-Prize Abstracts:

At each of the CCP13/ NCD Annual Workshops cash prizes are presented to the best poster presentations. The judges are always senior scientists in the field and are often from overseas. Winners of the Poster Prizes are invited to expand their abstracts into short papers for inclusion in Fibre Diffraction Review.

Refereeing:

All papers, of whatever category above, will be refereed by at least two people (from the CCP13 Committee or their nominated referees) and may be either (a) accepted as they stand, (b) returned for rapid revision, or (c) rejected. As well as their scientific content, papers will be judged on their clarity of presentation and the quality of their figures.

Meeting Reports:

Fibre Diffraction Review includes reports on relevant meetings and conferences which include an element of fibre diffraction or small-angle scattering and which will be of general interest to our readers. Such reports will often be solicited by the Editor from known meeting participants. Other potential contributors to this part of the Journal should contact the Editor prior to writing their report.

Comments/Letters:

Feedback from readers about CCP13, about the NCD community and about the Journal itself are welcome. These could be in the form of comments or letters to the Editor. Suitable contributions will be published in the Journal.

Advertisements:

Industrial/commercial adverts of interest to our readers are welcome. Potential advertisers should contact the Editor for details of current rates.

Submission:

Contributions should be sent to the Editor before the annual deadline (November 30th) for each issue. Contributions submitted after this date may be held over for the following issue.

Colour illustrations are welcome and are included without charge. Contributions should be submitted both in hardcopy (ONE complete copy) and in electronic format to the Editor (j.squire@ic.ac.uk).

Text should be in Word 6 format and illustrations should be submitted as separate files at high resolution in TIFF or JPG format.

References should be in the format specified for *J. Molecular Biology*, and should be complete with title. Please find more details from our website.

Reprints:

It is not economic for us to produce reprints of articles. However, in future, papers will be made available on the CCP13 website in downloadable pdf format.

Those wishing to purchase extra copies of the whole Journal should contact the Editor to find out costs.

Editor's Address:

Professor John M. Squire,
Head, Biological Structure and Function Section,
Biomedical Sciences Division,
Imperial College of Science, Technology & Medicine,
London SW7 2AZ, UK.

Editor 'Fibre Diffraction Review' (ISSN 1463-8401).
